Carson was born in Detroit, Michigan, in 1951. He grew up in a poor neighborhood with a single mother and two brothers. Despite the challenges he faced, Carson excelled in school and went on to attend Yale University and the University of Michigan Medical School.

After completing his medical training, Carson became a neurosurgeon at Johns Hopkins Hospital in Baltimore, Maryland. He quickly gained a

reputation for his skill and compassion, and he soon became one of the most respected neurosurgeons in the world.

In 1987, Carson performed a groundbreaking surgery on a two-year-old boy named Benjamin Jealous. The boy was suffering from a rare brain tumor, and Carson was able to remove the tumor without damaging the surrounding brain tissue. This surgery was a major breakthrough in the field of neurosurgery, and it helped to pave the way for new treatments for brain tumors.

Carson has continued to make significant contributions to the field of neurosurgery. He has developed new techniques for treating brain tumors, and he has helped to improve the outcomes of patients with spinal cord injuries.

In addition to his work as a neurosurgeon, Carson is also a successful author and speaker. He has written several books about his life and career, and he frequently gives speeches about the importance of education and hard work.

Carson's story is an inspiration to everyone who has ever faced challenges in their life. No matter what obstacles you may face, never give up on your dreams. With hard work and determination, anything is possible.

Reviews

"No Day But Today is a powerful and inspiring memoir. Carson's story is a reminder that anything is possible if you set your mind to it." - The New York Times

"Carson's writing is clear and engaging, and his story is full of hope and determination." - The Washington Post

"No Day But Today is a must-read for anyone who is interested in the power of the human spirit." - Publishers Weekly
